

# TODAY'S SECURITY IS NOT SECURE

It's Time for a Massive Rethink in Security

Tens of billions of dollars are being spent on cyber security annually, yet organizations are still being breached at an **alarming** rate.

## Yet 66%

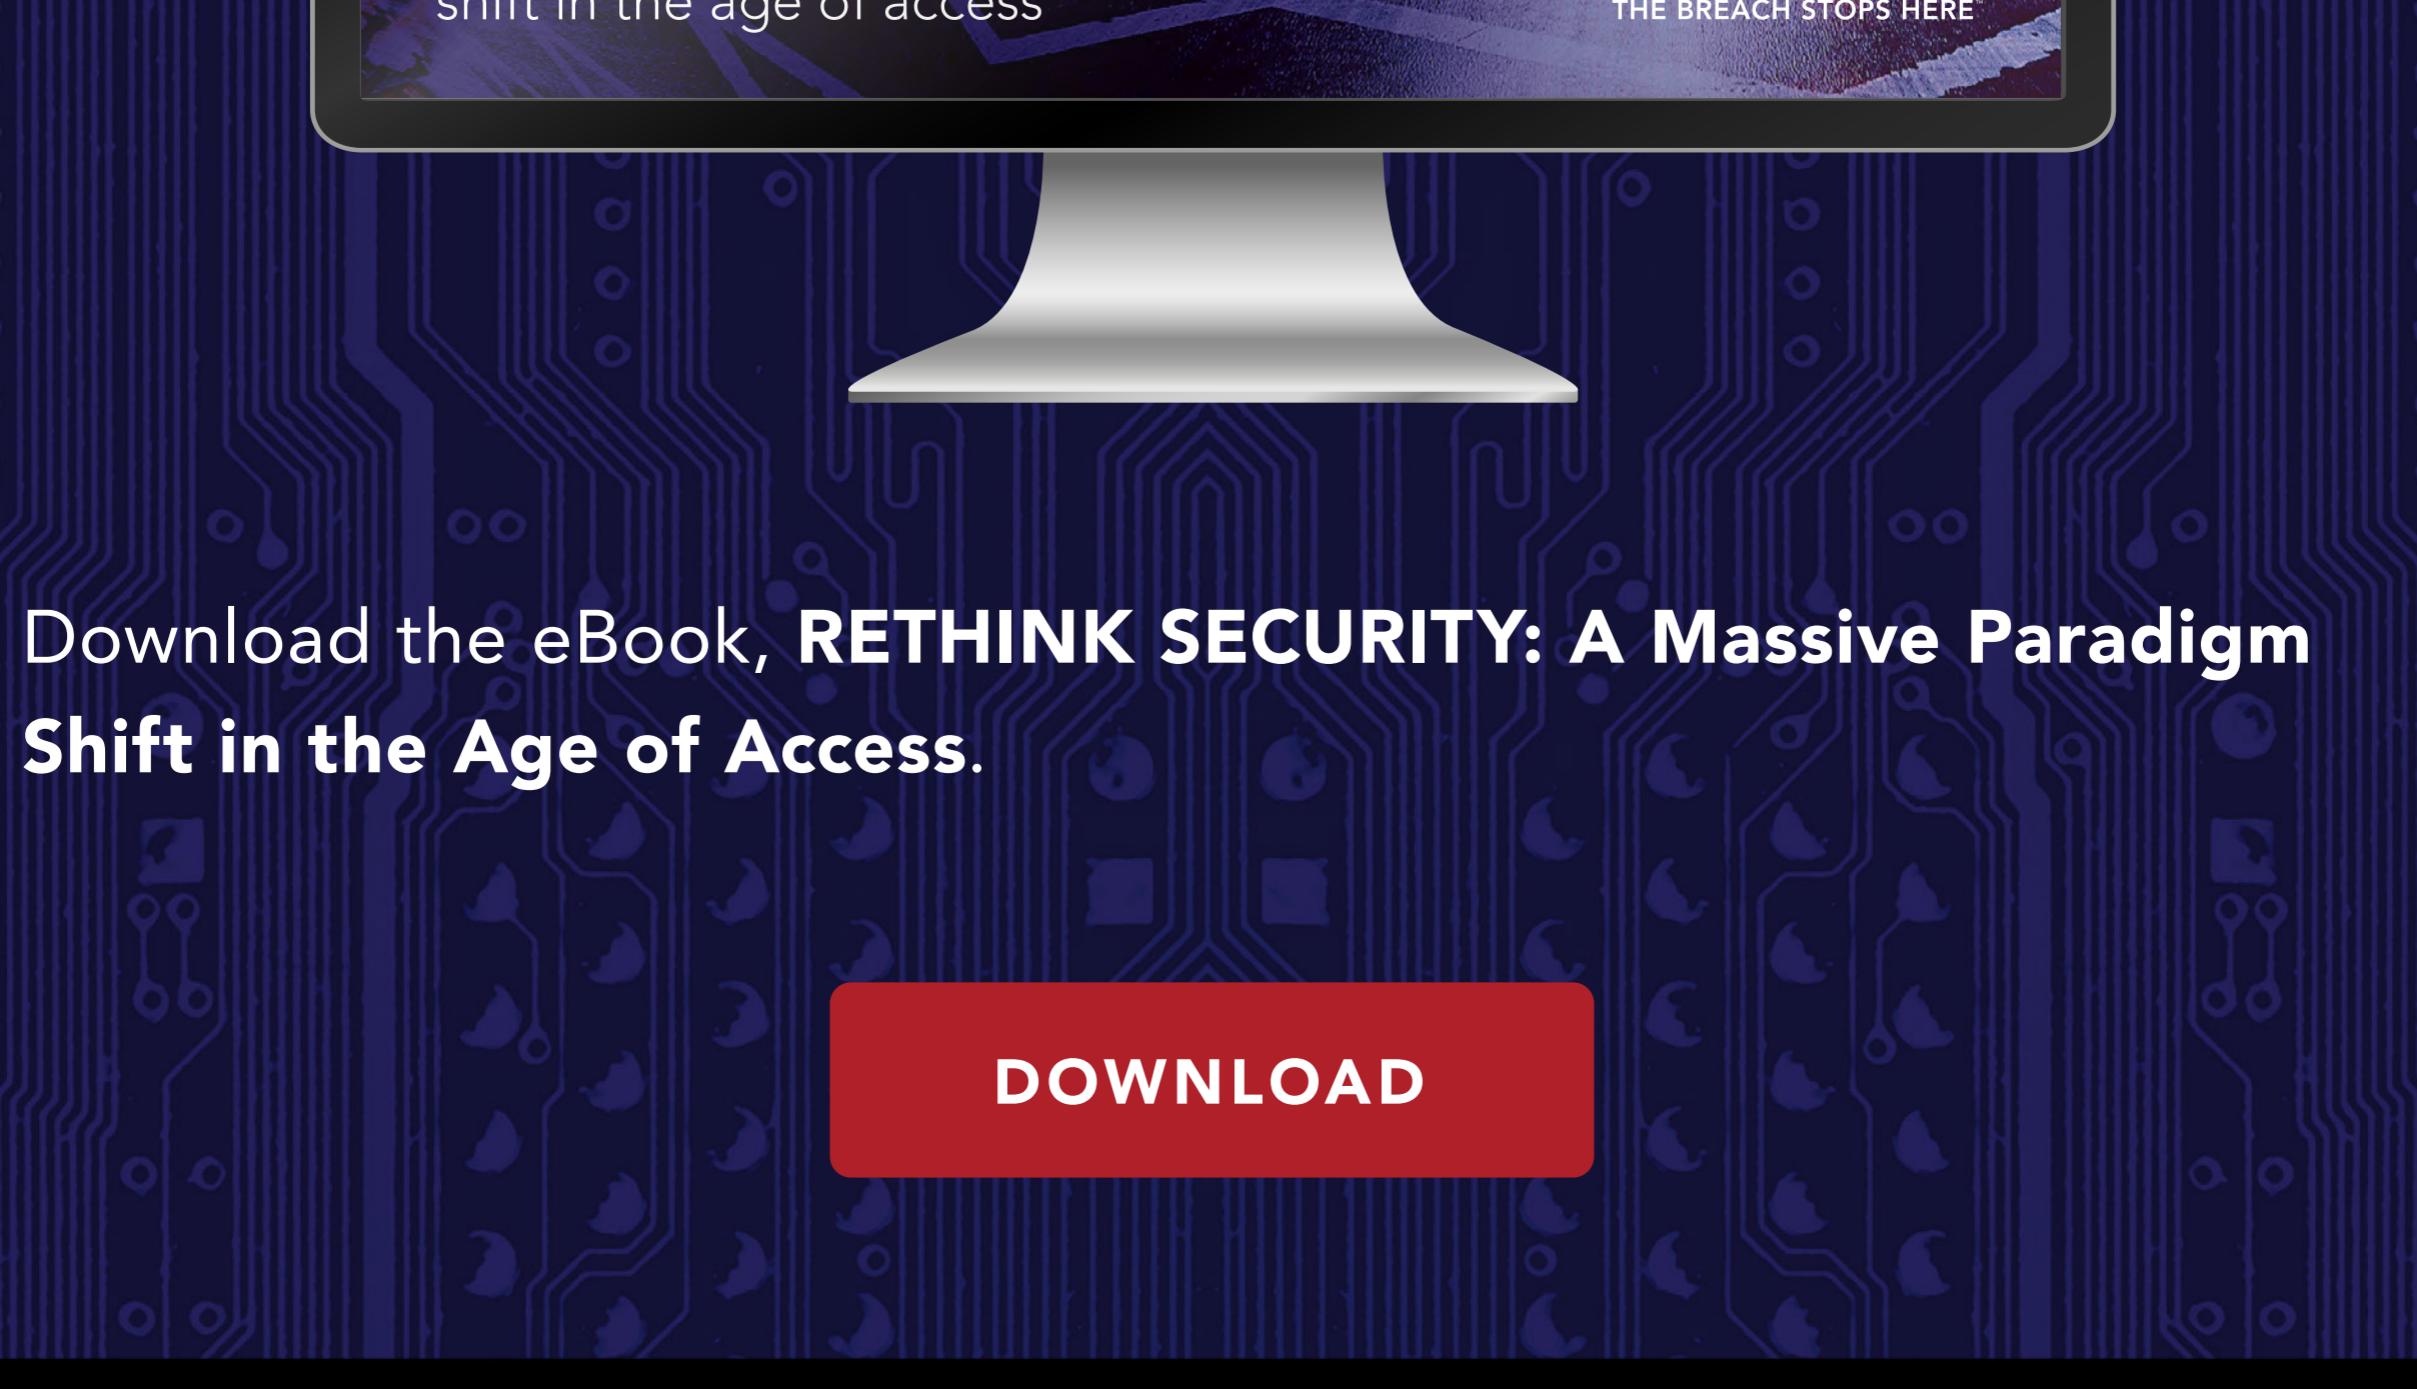

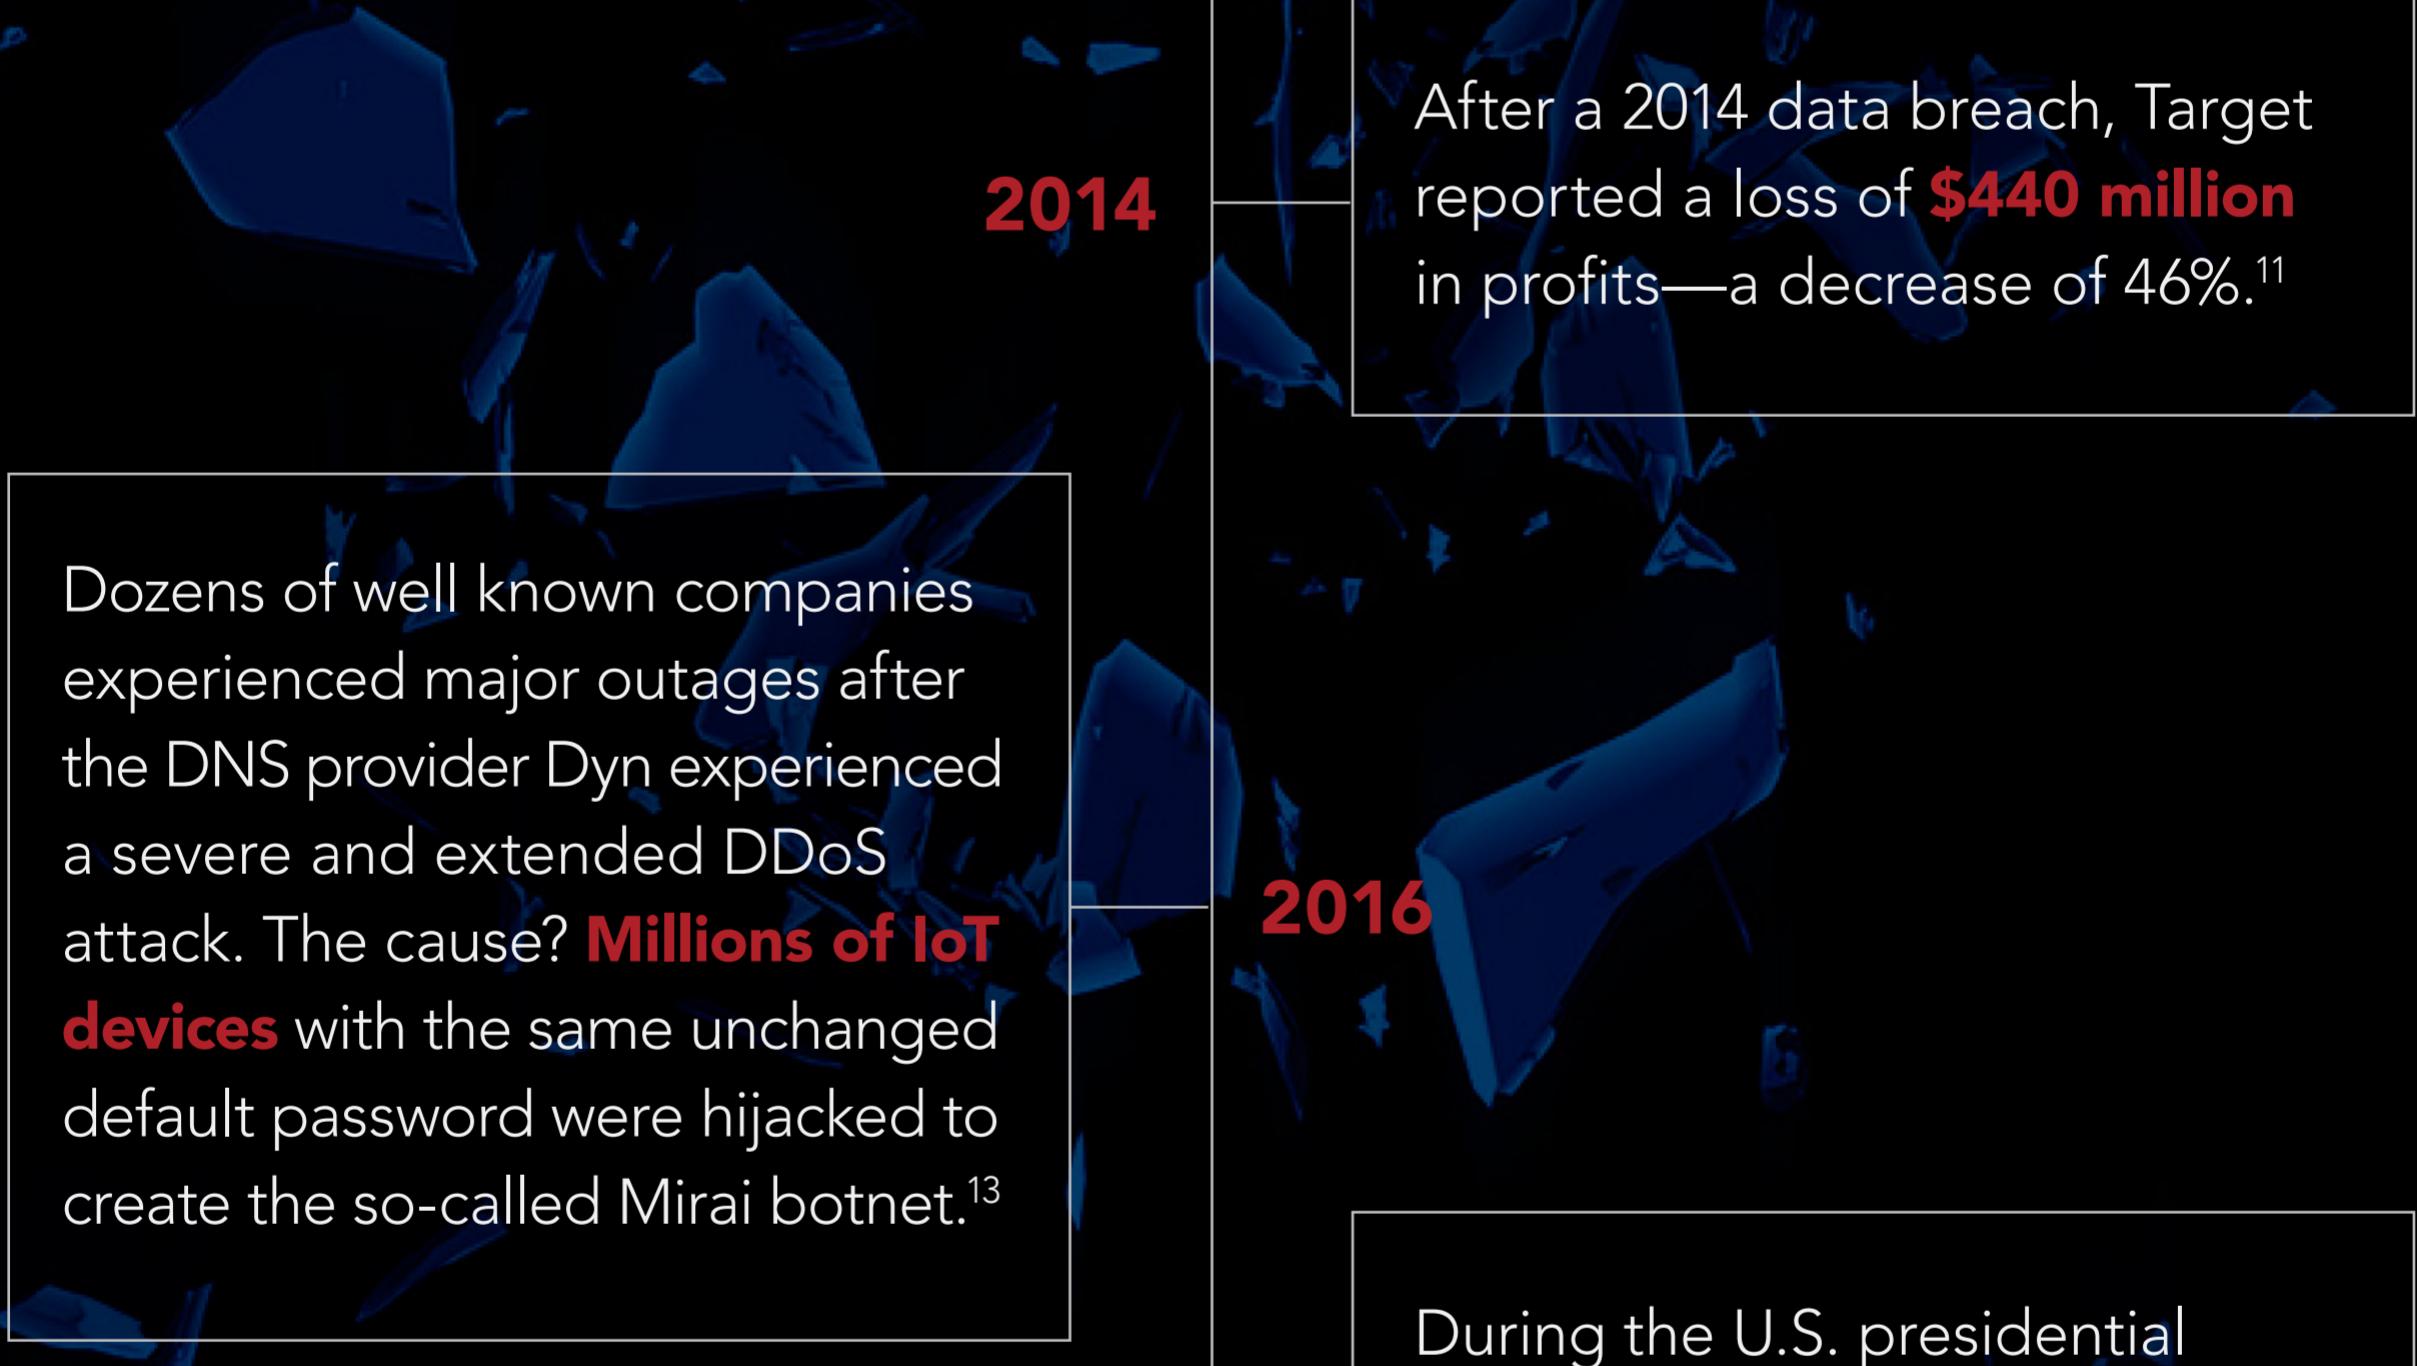

of organizations experience an average of 5 or more security breaches.<sup>2</sup>

With the rapid introduction of new technologies, platforms, applications, and practices...

Traditional static, perimeter-based security methods are not secure.

**And no password is safe.**
